EDUCATION

PSNA College of Engineering and Technology   **2019 − 2023**
*B.Tech - Information Technology - **CGPA - 8.35***   *Dindigul, Tamil Nadu*

EXPERIENCE

Zoho Corporation   **Contract May 2024 - November 2025**
Role - Software Debug Engineer Trainee   *Chennai, Tamil Nadu*

- Developed and deployed three robust web applications integrated with Zoho **SAS produc**t using Zoho Cloud Platform configurations.
- Automated testing processes for developed applications using **Selenium** with **TestNG** framework, achieving **faster** and more **reliable** testcycles.
- Led debugging efforts to identify and resolve application issues, ensuring **optimal performance** and reliability.
- Collaborated with cross-functional teams to deploy applications in production environments, ensuring **seamless integration** and minimal downtime.

Intern at Shiash Info Solutions Private Limited   **June 2023 - August 2023**
Role - Full-Stack Web Developer   *Chennai, Tamil Nadu*

- I have gained hands-on experience in both front-end and back-end web development, which includes proficiency in **Html, Css, JavaScript, MySql** to develop efficient applications.
- Participated in code reviews and discussions to learn best practices and ensure the **quality** and **maintainability** of the codebase.
- Handle the Database and created a **responsive front-end** using Html, Css and JavaScript.

PROJECTS

File Management and Archive Viewer Web Application   **JULY 2024 -SEP 2024**

- Designed a web-based application for **uploading and displaying** file details, including nested archives.
- **Enhanced** user experience with **responsive** and clean table layouts for both main and nested content.
- Enabled **seamless** scrolling from file links in the main table to their corresponding nested archive tables using jQuery-based smooth scrolling.
- **Frontend**: Jsp, Html, Css, JavaScript **Backend**: Java Servlets **Server**: Apache Tomcat.

Spotify Clone Web Page link | Html, Css, JavaScript IDE - VS Code   **August 2023**

- Designed a **responsive user** interface that allows users to play songs and provides a **simplified** Spotify experience on the web.
- Developed the entire project from scratch, including the **front-end interface** and interactive functionality.
- This mini project served as a valuable hands-on exercise in web development and improved my skills in front-end technologies

Fashion Retail AI Chatbot link | Html, Css, JavaScript, Generative AI, IDE - VS Code   **March 2025**

- Built an **AI-powered** customer support chatbot using Google **Generative AI** (Gemini 1.5) to automate responses for product inquiries, order tracking, returns, and store policies, **improving** customer experience and reducing **repetitive** manual support.
- Created **structured system** prompts and response guardrails to restrict the AI to business-relevant topics, **improving** accuracy and brand alignment.
